Custom two-story building with stone work and cedar shingles designed to match the architecture of the owners existing home.

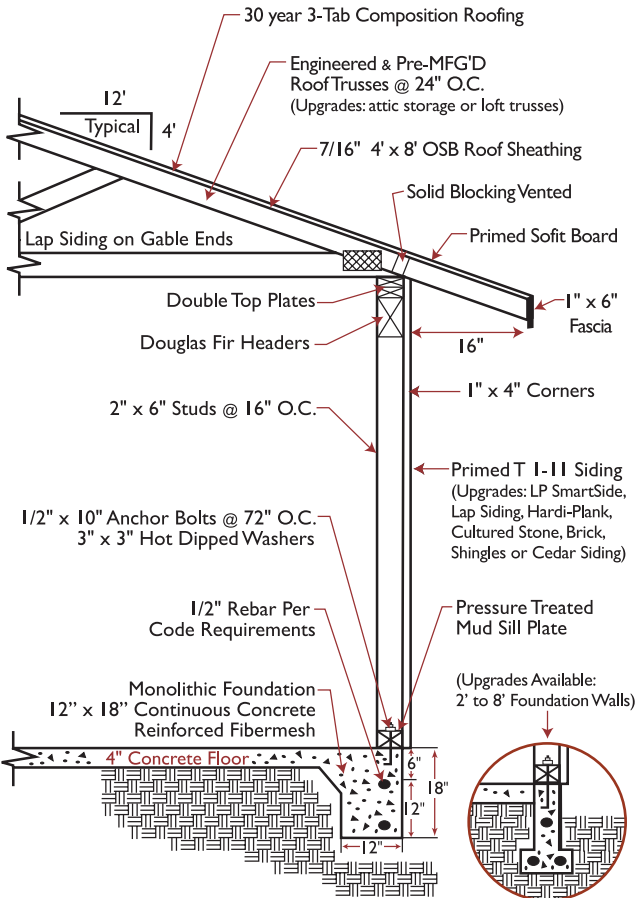

Traditional 24' x 36' x 10' (864 sq. ft.) double car garage with lots of room in the back for workspace and storage.

Custom two-car garage with loft above. 28' x 28' x 10' with hardi-plank siding and custom windows.

Standard Features:

Additional Features Included:

- 16' x 7' Insulated overhead door
- 3' Entry door with lock and deadbolt
- 4' x 3' Insulated window with screen

Custom garage addition added to an pre-existing home. Included stonework, hardi-plank siding and roofing to match the customers home.

Versatile building that can be used for just about anything from art studio to guest quarters.

Two-car garage with woodshop and home office area. Shown with hip-roof on a 7/12 pitch, concrete apron and sidewalks.

This building has it all! Three single car stalls to store all your toys, with RV garage and even workspace and storage room.

Classic two-car garage with shop. 24' x 36' x 10' with cedar lap siding.

Unique hip-roof design, double car garage with an additional single car garage set back gives more dimension and street appeal.
